If the world is real, you cannot get rid of it.  
If it is not, you don't have to.

When there is an awakened person,  
there is still the ignorance of a lunatic  
who used to sleep before.  
Everything that has a 'before' and 'after'  
happens in the dream.

way and not otherwise.

When you see that nothing has ever happened, there are no more steps. You are what you always have been and always will be; the rest is just *lila*, a theatrical play.

This totality is all there is.

When there is no more ‘you’ and ‘others’  
there is only love.

Everyone desires this love. It’s the true  
meaning of relationship.

The Self doesn't depend on anything, nor is it the caretaker of what unfolds. The Self, which is as it is, is perfect in itself. The absence of all ideas of what the Self is or is not, is perfect happiness and contentment.

You will avoid that finding,  
 because you won't be there anymore.  
 The worst thing for the seeker is  
 to find what he is looking for.  
 That means the end of the seeker.

To love yourself means there is a self  
that looks at itself as an object of love.  
This in itself is already duality.  
The love for the self is the root of all  
suffering.
